I am a training programmer, looking for possibilities to start a career in the software industry where I'll get an opportunity to expand my knowledge. My beginnings with programming started when I was studying Tourism and Recreation by doing some basic stuff in CSS and HTML just for fun. I continually look for opportunities to develop myself, and I recently completed a programming Boot camp and multiple courses online. I am able to find creative solutions to technical problems and am excellent when learning new skills.

TECHNOLOGIES

Java – Intermediate
GIT – Intermediate

Self- Motivated, Fast Learner, Teamwork, Communication, Organization Skills, Time Management

LANGUAGES

Polish – Native Language
English – Fluent

INTERESTS & HOBBIES

I am passionate about aerial drone filming, movie making and travelling. Having visited around 25 countries, with 10 in last year. My favorite journey was hitchhiking trip from Poland to Greece. I have been a drone pilot for more than a year, with 31 km flight distance in total but for education purposes I have decided to sell it.
